VOL. 1. SAN FRANCISCO, NOVEMBER 27, 1849. NO. 41.

For the Pacific News.

California Emigrants' Song.

Though friends we have left, and bade kindred adieu,—
The great West have traversed—the wide ocean too;—
Our hopes are as buoyant, our hearts beat as high
As ever before, 'neath our own northern sky.

On Pacific's far shores our fortunes are cast,—
We came with high hopes—we will stay to the last,
Or till fortune shall bless, when, with efforts repaid,
We will rest from the labor of pickaxe and spade.

Many comrades have fallen; ten thousand now lie
On the desert, uncoffined—their palls the blue sky;
In the ocean's blue wave some have gone to their rest,
And in quiet repose 'neath its billowy crest.

Whilst far midst the hills Sacramento's streams rise,
And in caverns of wealth screen man's golden prize;
There hundreds have fallen, their labors undone
By the vapors that curl round Nevada's red sun.

Still fear not for us, for our hearts are yet strong,
And oft, as we labor, "sweet home" is our song,—
Its visions come o'er us to brighten each day,
And, lessening the hours, meet twilight half way.

THE PACIFIC NEWS

FOR THE STEAMER, will be ready for delivery on Friday, the 30th inst., at 12 o'clock. The "News" for the next steamer will contain its usual variety of local and general information, review of the market, price current, and an exceedingly well drawn engraving, representing

The Town of San Francisco,

and the surrounding country, from the pencil of a skillful artist, who has succeeded in presenting not only the natural formation of the hills and dales, but the buirdings, tents, &c,. constituting the town, which has, as if by magic, so suddenly sprung into existence.

We have printed a small number of copies of the above view of San Francisco, on a letter sheet, for the convenience of those who may desire to present their friends with a correct view of this place, which may be obtained at our desk, at the low price of $1 per copy. Price of the paper, containing the picture, 50 cents per copy.

☞ Orders for the pictorial letter sheet, or "News" for the steamer, will be promptly attended to.

The Population of the State.

Supposing the total vote cast in the State, at the recent election, not to exceed fifteen thousand—and we doubt whether it will quite reach that figure—such a result will tend to create a very erroneous impression in the Atlantic States, as to the number of people at present in California. The fact unquestionably is, that while almost the whole of our population being adult males, were entitled to vote, the masses of the people being absorbed in their own pursuits, stayed away from the polls. In San Francisco, for example, the whole vote polled was about 3,300. Now, no man among us, pretends to doubt that if our voters had turned out, even as much as voters usually do in the large cities of the Atlantic side, in ordinary elections, when no particular political excitement exists, the vote of San Francisco would have been at least double that number. We have no doubt, whatever, if the voters in this place had rallied, as voters rally in New York or Philadelphia, at a Presidential election, the poll would have reached to at least 8,000 or 9,000. Such was the state of things *here*, where there was more political excitement than at any other point in the State, where *alone*, there was any show of party organization, (and that confined to *one* side) and where votes could be cast with the least inconvenience or loss of time. We learn that at Sacramento City and Stockton—the two other principal centres of town population—the vote polled can still less be taken as an index of the number of the people. The mining districts have not yet been fully heard from, but enough is known to assure us of the fact, that the miners did not generally vote. Very many of them indeed had not heard that an election was to take place until it was over. And of those who did know of the election, and were disposed to vote, a large portion would, from the necessity of the case, have been obliged to walk several miles from their working places to deposit their votes, and that, too, at a period of the season, when, in view of the approaching rains, every hour of their working time was most valuable. In these circumstances it was a matter of course, that the strength of the mining vote could not be polled.

The only public recognition which has been made of the probable number of our population is found in the apportionment to the State, by the Constitution, of two members of the Lower House of Congress, and the ascertainment, by the same instrument, of the number of State Senators and members of Assembly to be chosen in the different districts of the State. The clause of the Constitution bearing on this point, is as follows:

SEC. 14. Until the Legislature shall divide the State into counties, and Senatorial and Assembly districts, as directed by this Constitution, the following shall be the apportionment of the two houses of the Legislature, viz: the districts of San Diego and Los Angelos, shall jointly elect two Senators; the districts of Santa Babara and San Luis Obispo, shall jointly elect one Senator: the district of Monterey, one Senator; the district of San Jose, one Senator; the district of San Francisco, two Senators; the district of Sonoma, one Senator; the district of Sacramento, four Senators; and the district of San Joaquin, four Senators. And the district of San Diego shall elect one member of Assembly; the district of Los Angelos, two members of Assembly; the district of Santa Barbara, two members of Assembly; the district of San Luis Obispo, one member of Assembly; the district of San Jose, three members of Assembly; the district of San Francisco, five members of Assembly; the district of Sonoma, two members of Assembly; the district of Sacramento, nine members of Assembly; and the district of San Joaquin, nine members of Assembly.

It is the general impression, we think, with regard to this apportionment, that it rather under-estimates the present relative population of the Sacramento district, and, perhaps, rather over-estimates that of the district of San Joaquin. With regard to the district of San Francisco, we have no doubt that an accurate enumeration would now give to it, upon the scale adopted by the Constitution, one additional State Senator, and two additional members of Assembly.

An accurate census would also, at this time, undoubtedly give to the State under the present apportionment law, three if not four Representatives in Congress instead of two. The total immigration by ships entering at this port alone, from the 1st of May last to the 1st of the present month, must average about one thousand per week. This estimate excludes the whole number arriving in the steamers during the same time, and that number has been just as great as the three steamers, (to which the Unicorn is now added,) plying between Panama and San Francisco, and making their trips as fast as possible, could possibly bring. Besides this, we have the total overland immigration from the United States, during the same period, and we have met no "pilgrim of the plains" who estimates this at less than thirty or forty thousand. Add the large numbers who have arrived from Oregon, and then, taking the most moderate estimate of the resident population of California before the rush of immigration began, and the number of people now in the State cannot be estimated at much less than a quarter of a million. We think this estimate will be fully borne out by an examination of the amount of merchandise imported and consumed in the State, during the last few months.

It should always be borne in mind,

moreover, that to an extent never before seen or approached in any so large a community on the face of the earth, the population of California is an assemblage of *adult men*. We do not know that Congress can, under the Constitution, properly notice this fact in apportioning to California her representation in Congress, if such apportionment shall be made in the bill providing for her admission as a State. But it is a circumstance which certainly renders it still more unfortunate than it would otherwise have been, that a larger number of Representatives was not in the first instance allowed and elected under our Constitution.

From the Mines.

We learn from two intelligent gentlemen just returned from the mining district on the Sacramento, that the streams have swelled since the commencement of the rainy season, with a rapidity which has taken all the new comers there at least, quite by surprise, and in very many instances forced them to abandon their places of operation for the season, almost before they were well begun. A good deal of disappointment is of course expressed in many quarters, though the general yield of gold during the last month appears to have kept quite up to its former average. As luck may happen, the yield on the average seems to range from five dollars to sixteen dollars a day to each laborer. This estimate of course leaves out of view the cases of extraordinary success and extraordinary failure. Our informants have seen in the hands of a fellow traveller on his way to this city a most beautiful specimen of an oblong form and about an inch thick weighing *seven pounds and an ounce*. In the immediate vicinity of our informants who were on the South Fork, politics were hardly heard of and a very small proportion of votes appears to have been polled.

The Alta California gives the following summary of the latest intelligence in its possession from the mining region :

"The heights of the Sierra Nevada are covered with snow, and this has been the unwelcome form of the winter visitant in the more elevated "diggings," accompanied by cold water. The mountain streams are but imperceptibly swollen as yet, although the Sacramento has risen many feet, at its junction with the American river, since the commencement of the rains From Feather river the *golden* news is highly encouraging. A bar of the South Fork, situated nine miles above Bidwell's bar, (the original discovery of gold on this fork was here) has been worked during the late month with immense success. The character of the gold is coarser than that of the lower washings, and up to the time of the rains was abundant. The country around is of the most mountainous description. The Yuba and Bear creek washings are said to have yielded well during the low stage of water antecedent to the rains.

The Georgetown diggings are perhaps the most famous at the present time in the Sacramento Placer. These are situated about twelve miles distant, in a northeasterly direction from Columa, on the South Fork of the American River. Pieces of gold weighing from one pennyweight to ten and twelve pounds, have been discovered in this vicinity. The average for day laborers is said to be not less than three ounces, while instances of bagging eight and ten ounces per diem are by no means rare.

Owing to the earlier advent of the winter rains and inclement weather, than was anticipated, provisions have become scarce in the mining districts, the wretched condition of the roads preventing supplies from reaching the mountains seasonably. Many persons are now returning from the washings in consequence of this fact. Flour is selling on Feather River at $1 75 per pound, and at "the Mill" (Columa) for $1 25. All breadstuffs are proportionately high.

GOLD IN QUARTZ.—There has been a good deal of interest recently excited in our community by some remarkably fine and rich specimens of gold imbedded in quartz rock, which have lately been brought to this city. In the few specimens which we have seen, being but small pieces of the rock, the gold is not so largely visible, as in many of the similar samples which have been sent home But the yield upon breaking the rock, is said to be very large, and the rock itself is found, it is said in some of the mountain districts, in vast, and indeed, wholly inexhaustible masses. We understand that a gentleman now in our city, has in his possession several pieces of the rock averaging from six to eight inches in diameter, forming the finest specimens of the kind which have yet been seen. We hope soon to be able to give farther details upon the subject.

THE STEAMERS.—It is supposed that the Oregon left Panama on her return to this port, on the 5th inst. In that case, she will probably be here to-day. If so, our merchants will have an opportunity to obtain their letters in time to answer them by the Unicorn, which is announced to leave on Saturday, 1st December, at noon. Should the Oregon not arrive as soon as anticipated, but come in on Thursday or Friday, we trust that the efficient and accommodating agent of the line, at this place, will feel himself authorised to detain the Unicorn to the last moment compatible with her due arrival at Panama, in order that she may, if possible, take back the answers to the commercial letters received by the Oregon. We are persuaded that such a course, on his part, would be regarded with favor by our whole community, and cordially sustained by Col. Allen, the special mail agent, and seconded by the best efforts of the Postmaster to distribute and deliver the mails with the least possible delay.

To the Editor of the "Pacific News":

Through the medium of your columns the writer is desirous of suggesting to this community that meaeures be immediately taken to put upon the great route between San Francisco and Panama four steamers, of the largest and most superior class, in all respects.

On the borders of the mighty Pacific, the great highway for steamers, an *Empire* has sprung into existence—a nation has been "born in a day" Even now its power and influence are felt in the remote corners of the earth. The North, East, South and West are meeting at the grand centre, where the standard of *labor* is the highest Labor is the mission of man All progress is due to the aspirations of the soul of labor, and true as the needle to the pole is the tendency of these aspirations to the point where the reward is greatest. California and her mines are no 'nine days wonder' Every intelligent mind will perceive that the present magnificent stream of emmigration must continue for years to come. Already, the life and soul, the energies of the business community are *pent up*, for the want of regular and speedy communication with the great commercial countries of the world. How long must we be depending on *one* line of steamers, however energetically managed? We do not lack the means; let us be up and doing, therefore, and within the space of ten months, we may have four fine steamers, the greater part owned by Californians, running as an independent line between San Francisco and Panama.

PROPELLER.

CITY ITEMS.

REPORTED FOR THE NEWS, BY "BOSTON."

ANOTHER POCKET PICKED.—We are informed that a man had his pocket picked, on Saturday evening, at the bar room of the Parker House, of one hundred dollars, in gold. There is evidently some dexterous rogue recently arrived, and the police should be on the alert.

We regret to say that there was a fight on Sunday, between a party of Chilians and Americans, in which pistols and bowie knives were freely used. One Chilian was severely wounded in the hand, by a knife.

☞ We learned, on Friday, that a man from the mines, who came down in the steamer M'Kim, with about *fifty pounds of gold*, in a belt, strapped to his body, in stepping from the steamer to the boat missed his footing, and fell into the water, where, of course, he immediately sunk. It has been since reported that the body was recovered on Sunday. We have no further particulars.

DROWNED.—A man was knocked overboard, by the boom, from the schooner Alice, Capt. Usher, coming down the bay from Stockton, on Wednesday morning, and was drowned. He was from the mines, and was working his passage. He said to one of the passengers that he had two friends in the lighter business. He was known to those on board only by the name of "Charles."

THE CONCERT of Mr. Horton, at the Bella Union, on Sunday evening, passed off very pleasantly, and the large audience seemed to be well pleased with the performance. We thought the part of the amateur flutist might as well have been omitted.

To the lines of "BOSTON," to Miss ——, published, some weeks since, in an obscure corner of our advertising sheet, he has received, from a lady in town, the following reply,

"Written upon gilt edged paper,
With a neat crow-quill, clean and new."

To secure a proper understanding of the "reply," the lines to Miss —— are now republished :

As in my home, in northern clime,
When Winter nears, with locks all hoar,
And chilling frosts, and bleak cold winds,
The birds migrate to southern shore;
So I depart for distant lands,
To seek a sunnier, happier home,

Free from the chilling frosts of grief,
Caused by thy cold and altered tone.
"BOSTON."

REPLY.

'Tis vain to tell me thou art gone,
With summer's birds, from this cold clime,
That with them, thou art speeding on
To where the year is one spring-time.

When winter smooths his chilling brow,
The birds and flowers return again;
As thou art going with them *now*,
Wilt thou be coming with them *then*?
Ttt.

Nota Bene.

I will! I've traversed deserts drear—
The ocean I've been tossed on,
And weary am.—Wouldst *thou* repose?
Come to the heart of——"BOSTON."

The ship *Artemisia*, Captain Hemmette, which arrived in the London Docks on Saturday, the 23d ult., from Zanzibar, had her mid-deck fitted up as a temporary six stall stable, which contained five Arabian horses, four greys and a bay, of a small but singularly perfect make, although somewaat out of condition from a long sea voyage. These horses, with another, which died on the passage, were sent over to her Majesty, from the Imaum of Muscat; they have been sent to the Royal stables at Buckingham Palace.

☞ In accordance with the Proclamation of the Governor, appointing a day of public thanksgiving, services will be held at the Baptist church, Washington street, on Thursday, 29th, at 11 o'clock, a. m. A sermon may be expected from the pastor. The public is respectfully invited to attend.

IN REPLY to a card, published in the Alta California, of 22d instant, we will, at this time, merely say that the writers of that are mistaken in supposing we design to injure them; but we wished, in justice to ourselves, to correct a wrong impression that their flag was calculated to give to the public. We also deny that there was anything "malicious" in the "character" of our article of the 17th instant, but merely a desire to assert our *rights, which we shall ever maintain.* But if they are disposed to treat it as such, we say "lay on," etc., and we will hereafter answer "A Card" more fully, and give whatever else may emanate from them such attention as it may merit.

CHINESE ETIQUETTE.—The Chinese are so punctilious that their code of etiquette outvies the most ceremonious courts in Europe. As soon as a guest alights from his sedan chair, he is met by the host, who bowe his head, bends his body and his knees, joins both hands in front, and with them knocks his chest. This is their mode of shaking hands. Now follows a polite contest as to precedence, which, after various knockings, bowings and genuflexions, terminates by the host and guest entering the house together. At the sitting apartment another ceremony takes place, equally protracted and irksome. The point to be determined is where each shall sit, and who shall be seated first. Etiquette extends even to a decision on the size of a chair, by which invariably the rank or importance of a guest is determined.

The host now motions to a large chair and attempts to take a smaller one himself. Good breeding compels the guest in turn to refuse this compliment; and, after a wearying contest of politeness, the point is amicably adjusted to the satisfrction of the belligerents, either by both parties sitting down simultaneously on the same bench, or upon two chairs of equal dimensions. The fatigue of this courtesy may be easily conceived as the same routine is performed on the arrival of each guest. As soon as the guests are assembled, tea is handed round in covered cups. which are placed in silver srands in the form of a boat. These are fluted and beautifully chas-d. The cups on the occasion to which I refer were of that antique porcelain so exceedingly valued, which is as thin as paper, pure white, perfectly transparent, and is ornamented with obscure figures, whose dark outlines are only perceptible when the cup is filled with tea. The mode of making tea in China is similar to that in which coffee is made in Turkey. The tea is put into a cup, boiling water poured over it, and instantly covered, to prevent the escape of the aroma, with a lid, which is used as a spoon to sip the tea.—[Dublin University Magazine.

DEATH OF MR. POLK IN ENGLAND.—Mr. Bancroft announced this event in England, in the following terms:

"Official intelligence has been received at this legation, that James Knox Polk, so lately President of the United States, expired on the 15th day of June last. Unlike his predecessors, he has ended life before the evening of old age; but not before completing an illustrious and memorable career. The judgment of his countrymen ever marked him out for high services. Raised successively to the first places in the State—chairman of the most important congressional committee; head of the House of Representatives of the whole American people; supreme magistrate in his own Commonwealth; President of the Federal Republic—he ever approved his fitness tor the highest trusts; excelling not more in station than laboriousness, prudence, temperance, and fortitude. He defined, established, and extended the boundaries of his country. He planted the laws of thr American Union on the shores of the Pacific. His influence and his counsels tended to organize the national treasury on the principles of the Constitution, and to apply the rule of freedom to navigation, trade, and industry. Most beloved where best known, he lived happily, and died in the midst of his country's unexampled prosperity, which his own measures had contributed to establish.

"I invite the consuls and vice-consuls of the United States, and all others of my fellow-citizens now in the United Kingdom, to share the sorrow of his family and his country. His memory as a public man lives in honor, and will endure; the youth of our country will be formed to virtue by emulating the purity of his private life.

"GEORGE BANCROFT.

"U. S. Legation, London, July 11, '49."

☞A large placard lately posted up in Paris states that, on the 18th of July next, the forest of Pacy, containing about 815 hectares, will be put up to auction, at the upset price of a million francs, by legal order of M. Louis Philippe, Count de Neuilly, formerly residing at the Tuilleries, and of all the members of his family residing in England, Spain and Germany.

The Duke and Duchess of Sutherland have sustained a severe domestic affliction by the sudden demise of their youngest daughter, the Lady Alexandrina Leveson Gower. The deceased child was taken ill in the course of the day after the nuptials of the Marquis of Stafford and Miss Hay Makenzie, never afterwards rallied, and died within a few hours.

RIVER AND LAKE COMMERCE.—In 1847 as reported to the Chicago River and Harbor Convention, 1200 steamboats, with 17,000 men, were employed on the western rivers. This was exclusive of 4,000 keel or flat-boats and their crews. The inland commerce of the country was then estimated at near $440,000,000; being nearly DOUBLE our whole foreign commerce,

ORIGIN OF THE NAMES OF THE STATES. Maine was so called as early as 1638-from Maine in France, of which Henrietta Maria, queen of England, was at that time proprietor.

New Hampshire was the name given to the territory conveyed by the Plymouth company to Captain John Mason, by patent Nov. 7, 1639, with reference to the patentee, who was governor of Portsmouth, in Hampshire, England.

Vermont was so called by the inhabitants in their declaration of independence Jan. 16, 1776, from the French *verb* green, and *mount*, mountain.

Massachusetts was named from a tribe of Indians in the neighborhood of Boston. The tribe is thought to have derived its name from the Blue Hills of Milton.—"I have learned," says Roger Williams, "that Massachusetts was so called from the Blue Hills."

Rhode Island was so called in 1644, in reference to the Island of Rhodes in the Mediterranean.

Connecticut was so called from the Indian name of its principal river.

New York was so called in in reference to the Duke of York and Albany, to whom this territory was granted.

Pensylvania was so called in 1681, after William Penn.

Delaware was so called in 1703, from Delaware Bay, on which it lies, and which received its name from Lord De La Warr, who died in this bay.

Maryland was so called in honor of Henriet a Maria, Queen of Charles I, in his patent to Lord Baltimore, June 30, 1632.

Virginia was so called in 1584, after Elizabeth, the Virgin Queen of England,

Carolina was so called by the French, in 1564, in honor of King Charles IX, of France.

Georgia was so called, in 1792, in honor of King George II.

Alabama was so called, in 1817, from its principal river

Mississippi was so called, in 1800, from its western boundary. Mississippi is said to denote the whole river; that is the river formed by the union of many.

Louisiana was so called, in honor of Louis XIV, of France.

Tennessee was so called, in 1796, from its principal river. The word Tennessee is said to signify a curved spoon.

Kentucky was so called, in 1782, from its principal river.

Illinois was so called, in 1809, from its principal river. The word is said to signify the river of men.

Indiana was so called, in 1802, from the American Indians.

Ohio was so called, in 1802, from its southern boundary.

Missouri was so called, in 1821, from its principal river.

Michigan was so called, in 1805, from the lake on its borders.

Arkansas was so called, in 1819, from its principal river.

Florida was so called by Juan Ponce De Leon, in 1751, beeause it was discovered on Easter Sunday—in Spanish, "Pascua Florida."

FREE TRADE BETWEEN THE UNITED STATES AND THE BRITISH PROVINCES.—Hon. L H Lafontaine, the first member of the administration in Canada, under Lord Elgin, and W. H. Merritt, Esq. were among the passengers by the steamship of the 28th July, from Boston to Halifax. The Montreal Pilot, an administration journal, thus refers to the mission of these gentlemen:

"The Hons. L H. Lafontaine and W. H. Merritt left this city on the 26th for Nova Scotia, to meet the deputations of the other North American Provinces, for the purpose of consulting together on the most efficient means of arranging with the United States a commercial intercourse based on the principles of reciprocal free trade."

PUBLIC DEBT OF CANADA.—Mr. Hincks Inspector General, has published, in London, a pamphlet relative to the finances of Canada, by which we learn that the provincial debt is $20,832,564, which is higher than the liabilities of any state of this Union, Pennsylvahia and New York excepted. Mr. H. calculates that the public works, which have cost, as he states, $18,000,000, will only bring a revenue this year of 200,000, or little over one per cent. Whether this is net or gross income, the extracts from the pamphlet (in the Montreal Herald) do not inform us. Tea and coffee, which are free here, are heavily taxed in Canada, to aid in paying the interest on the debt, and yet enable the tory or reform functionaries, who may happen to be in office, to waste the revenue.. By more prudence in the outlay, the State of New York gets over 6 per cent. on its canal expenditure, while on the Rideau, St. Lawrence, Welland, and other canals of Canada, as a whole, the net income is scarcely half per cent. [Tribune.

☞There are thirteen manufacturing corporations in the city of Lowell, embracing a capital stock of $11.400,000, and numbering forty-five mills. The mills employ 7,915 females, and 3 340 male operatives. There are other unincorporated manufacturing establishments employing 1000.

Revolutionary movements in Mexico.

We see in many of the journals from the Atlantic seaboard general statements respecting the revolutionary agitation now in progress in Mexico. The following declaration purporting to be put forth in the name of the "seven northern States of Mexico" appears in Spanish, in the *Buen Publico*, a Mexican paper published at Matamoras. Judging from its phraseology and from its spirit, we should infer it to have emanated from an American pen. It may not be without significance, however, as an indication of public feeling in the region where it appeared.

DECLARATION OF INDEPENDENCE
JUNE 16, 1849.

Unanimous Declaration of the Seven Northern States of the Sierra Madre of Mexico.

When, in the course of human events it becomes necessary for one nation to dissolve the political bonds which unite it to another, and to assume separately among the powers of the earth the position to which the law of nature and nature's God, entitle it, a decent respect for the opinion of mankind requires that it should state the causes which impel it to the separation.

The history of the present and past government of Mexico is a history of repeated injuries and usurpations, all having for their direct object the establishment of an absolute tyranny over these States. To prove this we present the following facts to an impartial world:

First—Wearied with political changes, which have been heretofore nothing more than continued oppression, exercised by new hands, we declare ourselves free.

Second—Wearied with the exactions of the government, which have been made solely for the purpose of perpetuating the power of the usurpers of the liberties of the people, we declare ourselves free.

Third — Wearied with the armies which have been collected solely to oppress and annihilate the industry of all, except that of the oppressors, we declare ourselves free.

Fourth—Wearied that our beloved religion, constantly threatened with bayonets, is fettered in its design of benevolence and public instruction, we declare ourselves free.

Fifth—Wearied that the people, in the midst of their vast domains, are denied the right of individual possession, we declare ourselves free.

Sixth—Wearied with the promises which have been made to our children, who anxiously await in vain of their rulers the right of education, we declare ourselves free.

Seventh—Wearied that our aged fathers are sinking gradually into the grave, like the brutes, without any elevation, we declare ourselves free.

Eighth—Wearied that while misery and poverty prevail everywhere, the usurpers amass purple and gold, we declare ourselves free.

Ninth—Wearied with the national declaration that slavery should not be tolerated on our soil, while the domestic service is an odious, horrible and cruel system, and prevails without alleviation and without parallel we declare ourselves free.

Wherefore we, the people of the seven Northern States of Mexico, appealing to the Supreme Judge of the Universe for the rectitude of our intentions, now solemnly proclaim and declare "that these United States are free and independent." That they are absolved from all allegiance towards the Mexican government, and that all connexion between them has ceased, is and ought to be entirely dissolved. And consequently, as free and independent States, we have the right to levy troops of war, make peace, form alliances, establish commerce, and perform any other act or thing which appertains of right to free and independent States. And to sustain this declaration with a firm reliance upon Divine Providence, we mutually pledge to each other our lives, our fortunes, and our sacred honor.

We have drawn the sword and thrown away the scabbard. Now's the day! Death to tyrants!

☞We publish the following good-humoured *jeu d'esprit*, which has been sent in to us, because it calls the attention of the city authorities and of the Public, to a matter which as it seems to us *must* be promptly attended to. We are not informed what collections of the City Revenue have yet been made, nor whether they are sufficient as yet to begin to do anything effectual for the improvement of our streets. But unless something be soon done, we do not see how they can escape soon becoming *impassable*.

Editors of the Pacific News:

Will you call the attention of *all persons* pursuing in this city, the occupation of "merchants and traders," hawkers and pedlars," draymen and boatmen" to the necessity of *promptly* paying into the *City Treasury* their next monthly or quarterly payment, for the increased facilities which have been furnished by *our City Fathers* in conducting their business.

Who does not appreciate the *improved* condition of the *side walks*? And where is the *cartman* who will not *cheerfully* contribute to the fund which has already been so *liberally* expended, and which is still *promised* to be expended in the improvement of the *streets*. And what *boatman* who will hesitate to pay his quota, for the great facilities he has in landing passengers and merchandize at the *public wharves* and *piers*, and at the foot of the streets, and the very flattering *probability* of soon being able to *navigate* them throughout the city.

After freely realizing all these advantages, will any *good* citizen, hesitate for *one moment*, (or will they rather not pay in advance) for the many privileges and benefits, resulting from the *rapid public* improvements now going on.

A CARD.---Dr. R. McMILLAN having permanently located himself in san Francisco, will practice the different branches of his profession.

After several years spent in the best schools and hospitals in Europe conducted by the most able masters in the profession; after a long practice as surgeon in the U. S. army, and several years in civil life, he feels satisfied that he will be able to give very general satisfaction to those who may honor him with their confidence.

"ASPINWALL STEAM TRANSPORTATION LINE."

THE steamer "Captain Sutter," the first of this Line, being now completed, will make her *first trip to Stockton* on Thursday, the 15th instant.

For speed and accommodations she is one of the most desirable boats upon the river, while her light draught of water and capacity for freight renders her, in every way, adapted to the route.

She will soon be followed by the other steamers of the same Line, viz:

"El Dorado,"
"Hartford,"
"Georgiana."

All of which, being constructed with special reference to their various routes, offer every facility to the traveller and shipper.

For all information, and for freight or passage, apply to James Blair, agent; office head of central wharf. xxxv tf

LOTS FOR SALE *in the city of south San Francisco*, offering the greatest inducements to persons recently arrived, who are desirous of locating themselves with superior advantages. The city of south san Francisco is situated two miles south of the city of san Francisco, immediately on the bay, having every advantage for the shipping, and is supplied with wholesome water in great abundance. A stream of sufficient quantity to supply both cities and all the shipping that ever may lay in their harbors, forms the northern boundaries of this place—is quite accessible and is about being conducted into reservoirs for that purpose. The harbor is more securely protected from the winds than the harbor of san Francisco, and ships of the heaviest burthen may at all times of the tide lay within a boat's length of the land at many points, and quite close along the whole front of the city, affording the best facilities to discharge cargo. The soil is free of dust, and is of a rich clay nature. There are extensive stone quarries, and springs of pure running water are in many places. The surrounding scenery is highly picturesque, and a more pleasant place for residences, or a more convenient place for business is not to be found on the bay. The only good road from the city of san Francisco to the Pueblo of san Jose passes through south san Francisco, crossing the mouth of Mission creek and the mouth of the stream of fresh water already alluded to On this road you travel along a beautiful valley of firm grass land to the puertesuelo, a distance of less than two miles. Persons desirous of purchasing lots, which will wholly equal in value those of the City of San Francisco and provide for themselves residences on moderate and easy terms can do so by calling at the office of the undersigned in Clay st., where full particulars will be given them. HUNTER & BROTHER,

Agent for the Proprietors.

A good House with everything necessary for the accommodation of visitors, is now established at south San Francisco.

RARE CHANCE for investment of capital for business men. Business calling the subscriber to the United States, he offers the following most desirable property for sale.

The Buena Vista Rancho, situated on Jackson creek between Dry creek and the Mockelmna river, on the main road leading from Sutter and Sacramento river, to the Mockelmna, Stanislaus, Stockton, and the San Joaquin. On the ranch there is two large new corrals, large log buildings, three hundred head of beef cattle, three wagons and teams, horses, pack mules, saddles, etc. A large lot of provisions, mining goods, and Indian trade. This rancho is one of the most important trading posts in the mining district; the ranch is well supplied with water and grass; several hundred head of horses are pastured on the place, belonging to the miners, and the trade with miners and the Indians is very extensive; the roads from Sutter, Sacramento city and Stockton, are very superior. The above offers a rare opportunity for business men to invest capital; this trading post has been established over twelve months, and the most central post in the mines. For further particulars apply to T. B. Winston, Esq., san Francisco; Geo. McKinstrey, Jr. Esq. town of Sutter, or W. H. DIGGES, on the ranch.

TOWN OF BOSTON.—Lots at the town of Boston, beautifully situated at the junction of the American Fork and Sacramento rivers, are now offered for sale. The town of Boston is only a few hundred yards above Sutter's Embarcadero, on the north side of the American Fork, and in the immediate vicinity of the gold mines, and from its situation possesses superior advantages for business purposes. The land which forms the site of the town is twelve feet above the highest water mark, and the river is twenty-three feet in depth at the banks. It is believed that no place offers greater inducements for investments than this town, as in addition to the above mentioned advantages it has a fine climate, good soil, with an abundance of excellent water, and is free from inundation at all seasons. The town has been surveyed by Mr. J. Halls, and laid out in a convenient manner, and a plan of it can be seen, and any other information relating to it obtained on application to

Hiram Grimes, } San Francisco;
or, J. Halls, }
iv tf or, W. H. Tiffany, at Boston.

CAUTION.—Whereas, one J. A. Sutter has published a notice, in which he claims title to the land on the east bank of the Sacramento river, between the Feather river and the American Fork, I hereby notify the public that I am the only legal owner of the said land, under a warranty deed from J. A. Sutter himself, dated Aug. 10, 1848; and I therefore caution all persons that no legal title can be acquired to the same, or to any portion thereof, except through me. Justice to myself requires me to add that I shall hold the said J. A. Sutter legally responsible, both for the libel on my character, and the slander of my title, which his notice contains; and that if its publication is the result of a conspiracy to defraud me of my property, I shall take care that the offenders be brought to justice as soon as a criminal court before which they can be tried, is legally organized in this territory.

Any person desiring to satisfy himself of my title to the above land, is invited to call on W. H. Tiffany, at Boston, or on the undersigned, at his office, sacramento street, san Francisco. Hiram Grimes

THE HOSPITAL OF SAN FRANCISCO.

W. H. STIVERS, M. D. Resident Physician.

Main entrance on the east or lower side of Stockton street, between Clay and Sacramento streets, south-west of and near the Post Office.

THIS establishment is composed of an extensive range of buildings recently erected, and formerly, in part, occupied for a Hospital by our fellow-citizen Dr. Melhado. Its arrangements are, in all respects, most commodious; on a scale, indeed, suited to the various and rapidly increasing wants of both citizens and strangers. The position is one of the best that could be chosen—elevated, healthy, and easy of access, with excellent water, and commanding a fine view of the bay. There is also attached to the premises an elegantly fitted up Bathing House, where cold, warm, hot and medicated baths may be had, at all hours. The Baths for the use of the public are entirely SEPARATE and DISTINCT from those devoted to patients

The Hospital of san Francisco is the FIRST, and, in fact, the ONLY Institution established on the Pacific coast, on a broad, liberal and sure foundation. It is a refuge for the sick—a home for the invalid, where comfortable quarters, good nursing, watchful medical treatment, and suitable diet will do all that human effort can do to alleviate suffering and restore to health.

The Terms are placed on the most moderate basis, being in truth, about one-third to one-sixth less than the expenses necessarily encountered by the sick, under any other arrangement.

TERMS.

1st class, one in a single room, neatly furnished, $16,00 per day.
2d class, two in a room, neatly furnished, each $10,00 per day.
3d class, in wards, neatly furnished, each $5,00 per day.

☞ In all surgical cases, and cases of Insanity, there will be an extra charge.

NEW CITY HOSPITAL.—*A home for the sick*, on Kearny street, between Sacramento and California streets.

Drs. PAINE & COLTON have fitted up a new and commodious building at the above place, where they are prepared to receive patients on terms so low, that all who require medical attendance, will find it for their interest to place themselves under their care.

They have employed Dr. H. Pease as nurse, (and who will also superintend the culinary department,) and do all that kindness and care can do, to restore to speedy health those who may patronize the establishment.

For terms &c., call as above.

STOCKTON FORWARDING, COMMISSION AND REAL ESTATE AGENCY.

The subscribers, under the firm and style of HEATH and EMORY, have completed their arrangements in the city of Stockton, and are now prepared, at their office and warehouse, at the corner of first and El Dorado sts., to freight to any part of the southern mines: comprising the Moquelemas, Angel's and Murphy's Camps, Wood's Creek, the Calaveras, Stanislaus, Tuoalome, Mercede, Mariposa and King's rivers. Teams and pack mules will start from their establishment every day for the above places.

The prices of freight, the time of starting, and all other matters of interest connected with the mines, or the facilities of getting to or from them, may be ascertained at their office. Goods and baggage will also be stored with great care, the subscribers having for that purpose erected a large, water-proof, plank-floored warehouse.

The subscribers also offer for sale 150 of the most valuable lots in the city, located in very desirable positions on both sides of the river. A map of the city may be seen at the office. RICH'D W. HEATH,

O. C. EMORY.

"OAK HALL!"

WHEREAS, some ambitious person has opened a "seven by nine" shop, near the City Hotel, with the sign of "*Oak Hall*," we feel it a duty we owe to the public, to him with whom the name originated and to ourselves, to state that said shop is in *no way* connected with the *original* establishment, and that we are the *only House* in California that has any right to make use of the name of *Oak Hall*; which is as much the *property* of the proprietor of that establishment as is the *reputation* he has won. As a branch of that house, we shall, from this time, take its name, and hope to merit as liberal a share of patronage from the people of California, as has been extended to the house by the inhabitants of the Atlantic states.
